Amazon Extreme Yacht

Welcome to the new Amazon Extreme yacht! The new Amazon Extreme yacht is a smaller, extremely shallow drafting yacht designed for fishing very remote tributary headwaters where other yachts cannot reach. It is 27 meters in length, 6.5 meters wide, drafts only 90 cm of water, and can accommodate up to ten anglers. It has a 280 hp Volvo-Penta motor, two Mercedes generators, two air-conditioned triplex suites w/ private bathrooms, four air-conditioned double occupancy staterooms w/ private bath, air-conditioned dining room with wide screen TV and stereo system, and a spacious upper deck w/ bar area and barbeque. It has six stable aluminum fishing boats with new 40 hp outboard motors, new trolling motors with long lasting batteries, and marine radios. All of our local fishing guides have over ten years experience guiding anglers for trophy peacock bass. This small yacht operation focuses on taking smaller groups of anglers to very secluded tributary headwaters for giant peacock bass.

Season: September through March
